### summary

---

I'm a passionate, driven junior backend developer always looking to challenge myself and learn new technologies. I have strong software development skills, with a focus on the backend, and I'm always eager to take on new projects and tasks which include developing applications in languages such as PHP, Java-Script, and Laravel Framework and database systems such as MySQL, I am excited to continue learning and growing in this field.

### Education

---

**Bachelor's degree of Computer Science and Technology** 2018 – 2022  
*Modern Academy in Maadi*

### Experience

---

**Freelancer Backend Web Developer** 2022 – present  
I have been working as a freelancer on various platforms for the last year, and during that time, I have completed many projects. Through this experience, I have learned how to effectively manage and organize my time to consistently deliver work

**Team Leader** 03-2019 – 03-2021  
*Resala Charity Organization* Maadi  
Led a team of volunteers in organizing and implementing fundraising events and clothing fairs, while improving my interpersonal and communication skills.
